REGISTRATION / DEMOGRAPHICS

Patient Name: Jane Smith
Date of Birth: 03/15/1980
Age: 43
Sex: Female
Address: 789 Main Street, Apt 101, Metropolis, XY 12345
Phone: (555) 987-6543
Medical Record Number: 123456789
Account Number: 987654321
Insurance: HealthSafe Plan
Emergency Contact: Richard Smith - Husband, (555) 654-3210

Encounter Date: 09/25/2023
Check-In Time: 08:30 AM
Location: Gastroenterology Clinic, Suite 400
Attending Gastroenterologist: Dr. John Doe, MD
Referring Provider: Dr. Laura Johnson, MD
Chief Complaint/Indication: Dyspepsia Evaluation

Medical History:
- Diabetes Mellitus Type 2
- Hypertension
- GERD

Surgical History:
- Appendectomy (2003)
- Cholecystectomy (2010)

Family History:
- Father: Heart disease
- Mother: Breast cancer

Social History:
- Smoking: Never
- Alcohol: Social consumption

Allergies: Penicillin

Problem List:
- GERD
- Controlled Type 2 DM
- Hypertension

Current Medications:
- Metformin 1000mg BID
- Lisinopril 10mg daily
- Omeprazole 20mg daily
- Atorvastatin 20mg daily
- Metoprolol 50mg BID

Pre-Procedure Vitals:
BP: 130/85 mmHg
HR: 76 bpm
SpO2: 98% on room air

ASA Classification: II

Informed Consent: Patient has been informed about the procedure, its risks and benefits, and provides consent.

PRE-PROCEDURE ASSESSMENT & ANESTHESIA RECORD

Pre-Anesthesia Evaluation:

- Airway: Mallampati II, no anticipated difficulty
- Cardio/Pulmonary: No wheezes or rales, regular rhythm
- NPO Status: Clear liquids, stopped 12:00 AM
- Last Oral Intake: 8:00 PM prior night

Planned Sedation: MAC with Propofol + Midazolam

Anesthesiologist: Dr. Sarah Lewis, MD

CRNA/AA: James Carter, CRNA

Times:

- Anesthesia Start: 09:15 AM
- Procedure Start (Scope In): 09:30 AM
- Procedure End (Scope Out): 09:55 AM
- Anesthesia End: 10:00 AM
- Recovery Start: 10:05 AM
- Recovery End: 11:15 AM

Monitoring Trends:

- 09:20 AM: BP 132/86, HR 74, SpO2 98%
- 09:35 AM: BP 128/84, HR 76, SpO2 96%
- 09:50 AM: BP 130/82, HR 72, SpO2 99%

Complications: Brief desaturation to 92% resolved with jaw thrust and O2 adjustment.

Post-Anesthesia Evaluation:

Aldrete Score: 9/10; home with escort.

PROCEDURE NOTE

Procedure Name: Esophagogastroduodenoscopy (EGD)

Endoscope Model: Olympus EVIS, Route: Per Oral

Patient Positioning: Left lateral decubitus, Bite Block used

Procedure: After informed consent was obtained, a detailed EGD was performed. Oropharynx was entered without difficulty. The upper esophageal sphincter (UES) was passed smoothly. The esophagus was carefully examined, mucosa appeared normal, and the Z-line was at 39 cm from the incisors, with no notable signs of esophagitis or stricture. Viewing the stomach, insufflation was achieved with clear visualization of the fundus, body, and antrum. Rugal folds were prominent; no evidence of erythema, erosions, or ulcers observed. The pylorus was patent. Duodenum bulb and second portion appeared with no inflammation. Retroflexion in the stomach allowed complete assessment of the cardia and fundus without abnormality. The procedure was well tolerated without complications.

Findings:

- Normal esophagus, stomach, and duodenum.
- Z-line at 39 cm, no evidence of dysplasia or Barrett's.

Impression: Unremarkable EGD. No gross pathology detected.

Diagnosis:

- Normal EGD
- GERD (history)

Interventions: No biopsies or therapeutic interventions required.

Endoscopy Team:

Endoscopist: Dr. John Doe, MD

Assistant: Emily White, Endoscopy Tech

RN Circulator: Susan Green, RN

AFTER VISIT SUMMARY / DISCHARGE INSTRUCTIONS

Recovery Course: The patient emerged from anesthesia without complications. No pain or nausea reported. Tolerated clear fluids well, stable vitals.

Instructions:

- Diet: Resume diet as tolerated, start with light meals.
- Activity: Restrict strenuous activity for 24 hours.
- Warning Signs: Contact office if experiencing severe abdominal pain, fever, or vomiting.

Follow-up: Return visit in 4 weeks, results to be discussed.

Medication Plan: Continue current medications, Omeprazole increased to 40mg daily for GERD symptom management.

Results Communication: Phone call with test results and further instructions within 7-10 days. Next appointment scheduled.

Patient Understanding: Confirmed understanding of instructions; will be escorted home by husband.

RN Discharge Educator: Lisa Brown, RN

Discharge Education Timestamp: 11:30 AM
